

Effective April 6, 2011

Online CE Warning

On April 6, 2011, a representative from the University of Bridgeport informed the Board that an online course sponsoring company called "Chiropractic CE" (www.chiropracticce.com) had been falsely advertising that the university had approved and was sponsoring their online courses, webinars, and CD Rom packages. According to the representative, the only online courses sponsored by the University of Bridgeport are those from "OnlineContinuingEd, LLC" (www.chirocredit.com).

Arizona Administrative Code R4-7-801 (B)(3) requires licensees to complete online continuing education through an accredited college or university. If you intend on completing an online CE course, please make certain that the course is through an accredited college or university.
